Year 6 swimming achievements 2017-2018

Meeting national curriculum requirements for swimming and water safety	
What percentage of your current Year 6 cohort swim competently, confidently and proficiently over a distance of at least 25 metres?	46%
What percentage of your current Year 6 cohort use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]?	46%
What percentage of your current Year 6 cohort perform safe self-rescue in different water-based situations?	12%
Schools can choose to use the Primary PE and Sport Premium to provide additional provision for swimming but this must be for activity over and above the national curriculum requirements. Have you used it in this way?	No

*This data is correct as of this point in the academic year however it must be noted that swimming lessons for year 6 only take place in the summer term 2018 and this information will be updated upon completion.

Priority 1

Children to take part in more intra-school and inter-school competitions

- A timetable has been drawn up to support children in learning sports and practicing for inter and intra school competitions with Premier sports.
- Parish is also an enhanced member of SHAPES which provides schools with a variety of inter school competitions across the local authority.
- Children across key stages one and two have attended 10 inter school competitions so far this year and there are half termly intra school competitions between house teams.
- Edge Hill students have been supporting in PE lessons and also supporting the intra house competitions impacting positively upon children's learning about sportsmanship and the importance of following sporting rules.
- An audit of school resources has been completed and comprehensive list of equipment needed has been drawn up.
- A member of staff has attended risk assessment training and these are being updated and completed.
- Equipment checks and repairs have taken place and all equipment is suitable for use.

Priority 2

To develop CPD through afterschool and lunch time clubs with Premier Sports.

- In order to sustain our extended provision sports clubs, over the last 3 years staff have been receiving CPD from sports coaches. This includes teachers, teaching assistants and lunch time supervisors. This years CPD has focussed on training for all staff. 0% received training in 2015, 60% 2016 and 81% of support staff have worked alongside and been trained by our sports coaches during 2017-2018.
- All staff have given feedback via a questionnaire that they have improved their knowledge of a specific sporting activity.
- All staff have given feedback via a questionnaire that they feel confident or very confident about using their CPD in order to sustain PE and extended provision sports clubs.
- During the academic year of 2016/17, 77% of teaching staff gave feedback that they were either confident or very confident compared to this academic year were 80% of staff gave these gradings for the training that they received.
- Sports clubs are run over lunch, which are delivered by coaches and staff using skills from their ongoing CPD to make it more accessible to children that are unable to stay after school.
- Clubs have successfully become free for all children. Money allocation from sports funding has allowed us to do this alongside staff giving up time to run clubs for free due to training they received last year. Some examples of direct comparisons of increased participation so far this year are:
 - KS2 dance has increased by a further 94%
 - KS2 football has increased by a further 80%

Cricket has also been introduced and this has been delivered by Lancashire Cricket Club. Children participated in an afterschool club and went on to win bronze medals at a local cricket competition. Furthermore, a key stage1 and foundation stage gymnastics club has also been successfully introduced.

- Every class now compete in an intra house competition at the end of their PE rotation, this was introduced during CPD from our Premier Sports coach last year and has been sustained by teacher throughout 2016/17
- Transport costs to inter school competitions has been covered by the Sports Funding this will allow children from every class across school to attend a completion during this academic year.
- House captains and vice captains have been introduced as sports ambassadors and are high profile in promoting sports around school, attending competitions, supporting clubs, intra school competitions, assemblies and introducing and running new sports initiatives such as #Parish10 and #personalchallenge.
- FA reading and football has been introduced for phase 2 girls to encourage them to take sports at a younger age and continue participation by developing confidence.

Priority 3

Children to take part in outdoor and adventurous activities.

- All of Y3 will participate in Active Hope's Winter Warmer project which is a team building, outdoor pursuits 2-day experience. Allocation from the sports funding subsidised the cost of this experience and the coaches to the location which enabled every child to take part.
- Whitemoor lakes, 1-night residential outdoor pursuits experience was offered to all Y3 and Y4 pupils at a reduced cost. The transport for this holiday was paid for out of sport premium. 68% of the children were able to attend due to the reduction in cost.
- Attending to the above to outdoor/adventurous trips has increased participation in activities outside of the classroom as required by the PE curriculum. Therefore, this enabled us to sustain the amount of children attending this year.
- Transport costs will also be funded by Sports funding for our Adventure Service Challenge children (Junior version of Duke of Edinburgh) to attend their end of year overnight adventurous training camping challenge at Tatton Park. The participation in this club is 17 children and we believe that with the cost reduction that this allows this amount of children to attend.
