The cameras are linked to the monitor which is in the main school office and recording is stored on the driver which works on a continuous loop. Images are taken in colour and have HD capabilities but no sound is recorded.

The system is maintained twice a year by The CCTV Company.

## 4 Siting of Cameras

- 4.1 All CCTV cameras will be sited in such a way as to meet the purpose for which the CCTV is operated. Cameras will be sited in prominent positions where they are clearly visible to staff, pupils and visitors.
- 4.2 Cameras will not be sited, so far as possible, in such a way as to record areas that are not intended to be the subject of surveillance. The school will make all reasonable efforts to ensure that areas outside of the school's premises are not recorded.
- 4.3 Signs will be erected to inform individuals that they are in an area within which CCTV is in operation.
- 4.4 Cameras will not be sited in areas where individuals have a heightened expectation of privacy, such as changing rooms or toilets.

## 5 Privacy Impact Assessment

- 5.1 Prior to the installation of any CCTV camera, or system, a privacy impact assessment will be conducted by the school to ensure that the proposed installation is compliant with legislation and ICO guidance.
- 5.2 The school will adopt a privacy by design approach when installing new cameras and systems, taking into account the purpose of each camera so as to avoid recording and storing excessive amounts of personal data.

## 6 Management and Access

- 6.1 The CCTV system will be managed by the Executive Head Teacher, Deputy Head Teacher and School Business Manager.
- 6.2 On a day to day basis the CCTV system will be operated by the Executive Head Teacher, Deputy Head Teacher and School Business Manager.

- 6.4 Recorded images which are stored by the CCTV system will be restricted to access by Head Teacher and the School Business Manager.
- 6.5 No other individual will have the right to view or access any CCTV images unless in accordance with the terms of this policy as to disclosure of images.
- 6.6 The CCTV system is checked daily by the School Business Manager and/or Administration Assistant to ensure that it is operating effectively

## 7 Storage and Retention of Images

- 7.1 Any images recorded by the CCTV system will be retained only for as long as necessary for the purpose for which they were originally recorded.
- 7.2 Recorded images are stored only for a period of 14 days unless there is a specific purpose for which they are retained for a longer period.
- 7.3 The school will ensure that appropriate security measures are in place to prevent the unlawful or inadvertent disclosure of any recorded images. The measures in place include:
  - 7.3.1 CCTV recording systems being located in restricted access areas;
  - 7.3.2 The CCTV system being encrypted/password protected;
  - 7.3.3 Restriction of the ability to make copies to specified members of staff
- 7.4 A log of any access to the CCTV images, including time and dates of access, and a record of the individual accessing the images, will be maintained by the school.

## 8 Disclosure of Images to Data Subjects

- 8.1 Any individual recorded in any CCTV image is a data subject for the purposes of the Data Protection Legislation, and has a right to request access to those images.
- 8.2 Any individual who requests access to images of themselves will be considered to have made a subject access request pursuant to the Data Protection Legislation. Such a request should be considered in the context of the school's Subject Access Request Policy.
- 8.3 When such a request is made the Executive Head Teacher or a member of the Leadership Team will review the CCTV footage, in respect of relevant time periods where appropriate, in accordance with the request.
- 8.4 If the footage contains only the individual making the request then the individual may be permitted to view the footage. This must be strictly limited to that footage which contains only images of the individual making the request. The Executive Head Teacher or Deputy Head Teacher must take appropriate measures to ensure that the footage is restricted in this way.
- 8.5 If the footage contains images of other individuals then the school must consider whether:
  - 8.5.1 The request requires the disclosure of the images of individuals other than the requester, for example whether the images can be distorted so as not to identify other individuals;

- 8.5.2 The other individuals in the footage have consented to the disclosure of the images, or their consent could be obtained; or
- 8.5.3 If not, then whether it is otherwise reasonable in the circumstances to disclose those images to the individual making the request.
- 8.6 A record must be kept, and held securely, of all disclosures which sets out:
  - 8.6.1 When the request was made;
  - 8.6.2 The process followed by the Executive Head Teacher in determining whether the images contained third parties;
  - 8.6.3 The considerations as to whether to allow access to those images;
  - 8.6.4 The individuals that were permitted to view the images and when; and
  - 8.6.5 Whether a copy of the images was provided, and if so to whom, when and in what format.

## 9 Disclosure of Images to Third Parties

- 9.1 The school will only disclose recorded CCTV images to third parties where it is permitted to do so in accordance with the Data Protection Legislation.
- 9.2 CCTV images will only be disclosed to law enforcement agencies in line with the purposes for which the CCTV system is in place.
- 9.3 If a request is received from a law enforcement agency for disclosure of CCTV images then the Executive Head Teacher must follow the same process as above in relation to subject access requests. Detail should be obtained from the law enforcement agency as to exactly what they want the CCTV images for, and any particular individuals of concern. This will then enable proper consideration to be given to what should be disclosed, and the potential disclosure of any third party images.
- 9.4 The information above must be recorded in relation to any disclosure.
- 9.5 If an order is granted by a Court for disclosure of CCTV images then this should be complied with. However very careful consideration must be given to exactly what the Court order requires. If there are any concerns as to disclosure then the Data Protection Officer should be contacted in the first instance and appropriate legal advice may be required.

## 10 Misuse of CCTV systems

- 10.1 The misuse of CCTV system could constitute a criminal offence.
