

At Parish, we strive to provide a personalised broad, balanced and relevant curriculum for all pupils at the school that is supportive of their learning needs.

All children access our RAINBOW Curriculum offer. We believe that this provides a bespoke, unique and exciting curriculum that ensures our pupils both achieve and aspire highly.

We recognise that for some pupils it can be a challenge to access our whole school curriculum and that these children may need support in managing their communication, emotional, language or other needs.

We ensure that they are supported with our 'Rays of Sunshine.'

### Sunshine Curriculum

- Support to access wider curriculum
- Develop Universal life skills
- Nurturing and Inclusivity

### Support to access wider curriculum

Throughout their time at Parish, children will receive the curriculum offer through our Rainbow Curriculum. Due to their special educational needs, some children will require additional support to access this wider curriculum including differentiated tasks, additional prompts and support or specialised equipment. Further to this, some children may require a more bespoke, modified curriculum which has been specifically developed to meet their individual needs. These children receive a curriculum that is tailored to their individual needs, led by assessments and recommendations from external agencies.

### Universal life skills

Life skills are essential for pupils for them to become independent and successful. Developing life skills is embedded into our curriculum for all pupils at Parish, but especially those with additional needs. Carefully planned activities, experiences and routines are incorporated into the daily routines of children who need support in developing their interpersonal skills and emotional regulation. In providing opportunities for children to develop their life skills we aim to prepare them for life beyond Parish.

### Nurturing and Inclusivity

At Parish, we pride ourselves in providing a nurturing environment for all pupils. We ensure that our school is an inclusive environment, where all pupils are welcomed. We focus on wellbeing and relationships to support the development of young people. This extends beyond the classroom, encouraging nurturing relationships amongst pupils, developing their understanding of the needs of others.
