the class teacher will choose when to deliver this to have the greatest impact. Learning is further enhanced by a range of supporting texts.

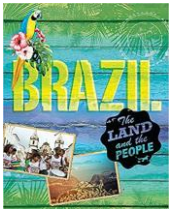

Reading Spine’ has been carefully selected to complement our QUEST children’s curiosity further in addition to providing opportunities to build of knowledge throughout the topic and drive learning forward; therefore, the class teacher will choose when to deliver this to have the greatest impact. Learning is further enhanced by a range of supporting texts.

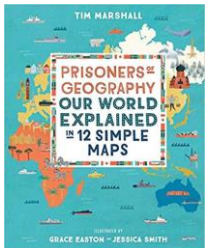

- **Core Text** (A book which is shared with a class to develop knowledge throughout the unit of work. Ideal for PIES inspiration during English lessons and central to learning within the Geography unit).
- **Supporting Text(s)** (A book which is ideal for children to independently study and learn key knowledge or information, often providing sources of information and evidence. This supports further learning about the topic and could also be perfect for a cross-curricular VIPERS Reading lesson).

The School’s Library Service is also used to provide a plethora of books that complement our curriculum delivery and are used throughout all Geography topics as additional supporting texts. Alternative resources, such as the internet for research and use of maps, may also be appropriate, meaning that individual books have not been chosen for each topic.

Each core text has fulfilled the four following criteria (Mary Myatt, 2021) to be chosen:
